

Bee Audacious Bay Area

Join Us! You are invited to attend a Bay Area Pollinator Habitat Conference on May 1, 2019 at the lovely Marin Art and Garden Center in Ross. This one-day event will not be the “lecture and slideshow” conference you are used to; we will be a gathering of gardeners, beekeepers, pollinator habitat experts, ranchers and researchers all discussing and brainstorming how to improve Bay Area habitats. Put on your thinking caps and share your insights: What works? What doesn’t work? What’s next?
